Who's My Mystery Crush?

A guessing game for sleepovers. Everyone has a secret crush. Can you figure out who it is?

3+ players · ages 7+ · easy to learn · play anywhere

1 Pick a secret crush

Think of **anyone everybody in the room would know**: a cartoon character, a movie or book character, a singer, an athlete, a YouTuber, even a famous animal. A real crush is okay too, **but only if you want**.

Keep it in your head. **Don't tell anyone, and no switching!** Just two rules: nobody who is in the room, and keep it kind.

2 Take turns asking

On your turn, **pick any player and ask them one question** from the Question List (or make up your own).

They answer about their secret crush, **honestly and without saying the name**.

Then you get **one guess** at who their crush is.

3 Guess right? Win a heart! ♥

If you're right, they say **"You got me!"** and you get a heart. Then they pick a **brand-new** secret crush.

If you're wrong, no big deal. It's the next player's turn.

How to win

The first player to **5 hearts** wins! Short on time? Play until lights out, and whoever has the most hearts wins.

Stuck?

If **3 guesses in a row** miss your crush, give everyone a hint: **the first letter** of their name.
